Internet & Web Page Design	Simple Animation

See: Setting Layer Properties for further details. Use a transparent Gif image to remove the background if required.

Internet & Web Page Design	Simple Animation

Adding the Timeline

Internet & Web Page Design	Simple Animation
6 6	~r

Use the numeric settings in the properties inspector to position the layer out of sight off screen.

Tip

Add the $\underline{\mathbf{L}}$ 151px + $\underline{\mathbf{W}}$ 200px = 351 px

Therefore insert a minus -351 > and the image will be off screen to the left.

15. Select the Autoplay Tick Box Note the Dialog Box below!
16. Save and Test Keyboard shortcut > Shift + S > F12 to load in Browser
